

## Stronghold 400 Wash Gun

### Product Description

A lightweight, high volume wash gun designed specifically for use on low and medium pressure cleaning systems. The gun has fully stainless steel internal parts with a large throughput to allow for foaming and a pressure compensated closing mechanism to protect the pumps and pipework from pressure spikes.

- Lightweight
- Super strong casing, ensuring maximum longevity and less maintenance
- Soft close trigger mechanism, reducing pipework shock
- Large bore fluid path, leading to good foam quality
- Integral inlet swivel
- Ergonomically friendly
- Fully stainless integral parts
- Available in blue and red
- Available with a QR coupling or 1/2" fixed outlet

### Technical Spec.

- Weighs 732g
- Max Pressure 60 Bar
- Max Water flow 100l/min
- Max temperature 150-C
