

PowerBox

The QJS PowerBox is a booster pump mounted in a stainless steel cabinet designed for mounting on the wall of a production area. This is then connected via pipework to QJS satellites.

Model	No of users	Pressure (bar)	No of pumps	KW Rating	Output flow (L/min)	Connections (inch)
0770	5	20	1	5.5	125	1.5
0771	10	20	1	7.5	210	1.5

Options for larger capacities are available in all pressures. **Please contact the QJS Team for further information.**
